

Our engineers at Baroni-Lab have spent years in research and development in order to design the perfect switching power supply to support their super-powerful, Class D 120-200w Mini Amps. What they eventually did was to also create a totally new generation of switching power supplies with no less than remarkable performance. Let's go over some of the highlights.

- Completely Silent, No-Noise Circuitry:
- Absolutely no damping voltage, even when high current is needed, the voltage remains very stable.
- Three groups, with independent ground- the implications are that if you have issues with stacking, for example, a vintage fuzze with other pedals, you would just need to move it to another group and thereby correcting the problem; or for example, when placing some pedals in front of your amp, and others in the fx loop, you are then able to avoid ground loop concerns.
- Outs with Self-Leveling Current:

What does that mean for the three groups in the Powerhouse 3000? Well, it means that each of the three groups have 1000mA available each. You would, for example from one group, be free to use 4 pedals draining 250mA each, or feel free to connect a high current pedal that might drain even 700mA from one out, the other three outs of that group still share the remaining 300mA. 1000mA is the total of one group. Easy!

The box includes:  
Powerhouse 3000  
1x power cable with your country's plug

## TECH SPECS.

<b>Power In</b>	100 To 230 VAC
<b>MAX current available</b>	3000mA
<b>9 outs (negative TIP)</b>	5,5 x 2,1mm plug
<b>3 Independent ground groups :</b>	
	Outs 1,2,3,4 (9VDC) 1000mA 5,6,7,8 (9VDC) 1000mA 9 (12VDC) 1000mA
<b>Larghezza (Width)</b>	127mm. (5")
<b>Lunghezza (Lenght)</b>	90mm. (3,5")
<b>Altezza (Height)</b>	30mm. (1,1")
<b>Peso (Weight)</b>	0,2Kg. (0,4 lbs)
<b>Box:</b>	160mm (7") x 180mm (7,1") x 75mm (3") 0,6Kg. (1,2 lbs)

## Terms of Warranty

**FOXGEAR** product warranty covers 5 years from date of purchase. The warranty does not cover damage caused by accident, misuse and / or neglect, failure to comply with the instruction manual, repair and attempted repair by personnel not authorized by **FOXGEAR LLC**, any damage caused during transport and delivery, (claims must be presented to the carrier); damage to any product that has been altered or on which it has been removed, defaced or altered serial number; damage caused by faulty connections or connections to equipment failures and/or defective power cables.

Responsibility of **FOXGEAR LLC** for any defective product is limited to repair or replacement of the product at our discretion.

The **FOXGEAR LLC** not be liable for damages resulting from loss of use of the product, lost time operation interrupted by non-use of the product, loss of business or any other damages or incidental, consequential or otherwise; damage in transit or damage caused by inadequate packaging or of poor quality.

**Assistance:** Please contact us for information on how, where and when to ship the product after the return has been Authorized by FOXGEAR LLC . The repaired goods should be packed carefully and we recommend not include any accessories such as cables, effects, manuals, etc. ...

Please attach a copy of the original receipt of purchase (invoice or receipt) together with a problem description and your personal details.

**THE WARRANTY IS NOT VALID \*WITHOUT A COPY OF YOUR RECEIPT OF SALE CERTIFYING THAT THE DATE OF PURCHASE.**

Foxgear pedals are designed in Italy and proudly handmade in our own factory in PRC.
